

DattnerArchitects

Dattner Architects is an award winning, mid-sized architecture firm based in New York City. We have a passion for the city, and for designing socially impactful spaces. Our firm is organized around three studios, each of which focuses on a specific typology: housing; education, cultural and healthcare; infrastructure and transportation. We maintain a vibrant working environment – one that nurtures learning and professional growth through mentorship and daily collaboration, as well as socialization. We regularly host continuing education seminars, “happy hour” presentations, and employee art exhibits. Our firm fosters diversity, community engagement, and live-work balance.

We are seeking passionate, design-minded intermediate level architects and designers to join our housing studio. The chosen candidates will work as key members of their project teams during all phases – from concept presentations and design development, through construction documents and administration.

Our housing studio focuses on affordable, transitional and supportive multi-family residential developments in New York City. Our projects are energy efficient, thoughtfully designed and considerate of both the surrounding neighborhoods and residents they serve. Some of our current projects include 425 Grand Concourse, an affordable passive house development in the Bronx; PS 186, the adaptive reuse and restoration of a decaying early 20th Century building into a Boys and Girls Club and affordable residence in Harlem; and 1600 Randall, transitional housing for formerly homeless.

If you believe in design equity, and share our love for the communities and people of New York, join us.

Qualified candidates will have:

- Bachelor or Master of Architecture
- 4-10 years' professional experience
- Strong design and technical skills
- Strong graphic and 3D presentation skills
- Focused, articulate, well-organized, detail oriented
- Proficiency with Revit
- Functional knowledge of AutoCAD, Adobe Creative Suite, 3d Studio Max, and/or Rhino
- Knowledge of NYC Building code, NYC Zoning Regulations
- Familiarity with Enterprise Green Homes, LEED, Passive House and WELL Building Standard
- Experience designing affordable or mixed-income urban residential projects in NYC
- Authorization to work in the US

To apply:

Download the Employment Application form from our website: <http://www.dattner.com/careers/opportunities/> and return the completed application with a cover letter, resume and work samples. Work samples should be limited to 10 pages and 5 MB.
