

### Project Designer

GTM Architects is seeking a project designer with up to 7 years of experience to add to its award-winning Commercial Studio in Bethesda, Maryland. Projects include a variety of retail and commercial interior renovations and new buildings. This position offers direct exposure to all aspects of project management and design. Responsibilities include working with clients, coordinating with consultants, and producing project design and construction documents.

This position requires a professional degree in Architecture. Candidates should possess the following attributes: excellent communication skills and professional demeanor, detail-oriented, eager to learn and grow professionally, and a desire to work individually or in teams on a variety of project types. Must be proficient in AutoCAD and SketchUp software. Skills in InDesign, Photoshop and Revit are a plus.

The right candidate will be able to flourish in our collaborative environment and become an integral part of the GTM team. Please see <http://gtmarchitects.com/projects/> to learn more about our firm and past projects.

#### Benefits:

- Excellent employer-paid medical, dental, vision, disability, flexible spending accounts, and dependent care
- Mentoring Programs + Individual growth opportunities available
- Catered AIA Lunch + Learn Seminars hosted weekly
