

RECOMMENDED COMPUTER REQUIREMENTS

SYRACUSE UNIVERSITY SCHOOL of ARCHITECTURE

SYRACUSE ARCHITECTURE

Undergraduates are strongly encouraged and graduate students are required to purchase a computer that can handle the advanced graphics and design applications we teach in our curriculum.

Please do not purchase an underpowered machine! While it may meet your needs for the first semester or two, you will soon discover that it cannot handle the demands of design and modeling software.

The School of Architecture and Syracuse University are set up to principally support computers with a Microsoft Windows operating system. However, students can purchase and use Apple Macintosh computers running OS X if they prefer. Macintosh users will need to install Windows to run programs such as Rhino.

Architecture students will also need to purchase Adobe Creative Cloud and Rhinoceros 3D software. Visit <http://soa.syr.edu/compbuy> for more information.

DELL PRECISION M4800

\$1959.00

Intel® Core i7-4810MQ
(Quad Core 2.8GHz, 3.8GHz Turbo, 6MB 47W, w/HD Graphics 4600)
