# About this Report

## Terminology

You will note that we report salaries (by alum's most RECENT degree) as a "median". A median is not the same as an "average" or a "mean". A mean may be pulled low or high by extreme data. Instead, median is the mid-point of all salaries reported. In other words, 1/2 the respondents earn less money, 1/2 earn more money. We also report the minimum and maximum salaries so that you know the full range. Also, in the data tables, "n" = the total number of responses.

> > Exception: For the Salary by Year of Degree and Salary by Year of Degree (Architecture ONLY) reports, mean is also reported.

## Sample Size

Every survey has limitations in methodology, and the conclusions we draw must consider these. Our sample includes only SU alumni/ae who have graduated since 1952, so we will not claim that these numbers are true for the whole profession. We have 695 responses. All data was collected through a web-based survey conducted October 1, 2008 - November 17, 2008.

## Confidentiality

In order to protect confidentiality, we are only reporting information when four (4) or more alumni/ae responded from the same year and/or the same location. For most reports, we grouped responses by year of graduation (in ranges of 5 years) to protect confidentiality.

## Advice for using this report

Find yourself in each of the many tables/reports in order to get the WHOLE picture. Just seeing the median salary for your year is not enough info ---- pull out all of the numbers related to you to get balanced information. Without having details about your years of experience, responsibilities, degree, overtime policy, and benefits offered, it is not easy to answer the question: "What's the average salary for Boston?" This survey will allow you to compare your compensation in terms of several individual attributes.

## Accuracy

You will note that, in some tables, the total percentages do not add up to 100%. This is a result of insufficient data rather than a reporting omission.

## Copies of this Report

The reports for this year's survey and for the 2002, 2003, 2004, 2005, 2006, and 2007 surveys are available in PDF format. You may download your personal copy from the main survey site.

Many thanks to the School of Architecture for its continuing support of Career Services, and to students and alumni/ae who have been generous with feedback and suggestions. This project is not possible without the talent and time of Noreen Gaubatz, Sherry Spuches, Joanne Capella and Julie Hall at the Syracuse University Office of Institutional Research and Assessment.

If you have any questions about the results or the methodology, please contact Connie Caldwell, director of career services, by e-mail at [cbcaldwe@syr.edu](mailto:cbcaldwe@syr.edu) or by phone at 315-443-4937. Our plan is to continue to conduct the survey annually. Your comments will improve the report for next year. Please be in touch!
