

PAUL LUKEZ ARCHITECTURE

<http://www.lukez.com/>

Are you looking for a position with an award-winning firm where you can be involved in all aspects of a project, from schematic design through construction administration? Do you like taking on lots of responsibility, meeting with clients, contractors, consultants and working directly with decision makers? Do you want to be in a studio environment where the team values design, research and learning as part of its core mission?

If so, Paul Lukez Architecture Inc. (www.lukez.com) is seeking talented and committed young architects with 2 – 8 years' experience. Applicants must have strong design skills, complimented with a love and appreciation for the craft of building. In addition, having a strong interest and experience in sustainable design concepts and technologies is an added benefit. Demonstrated experience with AutoCAD, Revit, SketchUp, and the Adobe Suite is required.

Being able to work collaboratively is essential. The design environment is fast paced and exciting, offering aspiring young architects a unique opportunity to significantly advance their design skills and expertise in a pleasant and supportive studio environment

We believe that design can provide innovative solutions to contemporary problems facing our world, in particular as it relates to balancing the needs of people, communities, institutions and the environment.

In a world where one size does not fit all, arriving at creative solutions is aided by a Design Process rooted in Research and Collaboration. Our Multi-Disciplinary search for solutions integrates the latest and best thinking about design.

Our search for finding the right “Solution” that “Fits” each “Problem” creates surprising, yet satisfying solutions which are deeply connected to people, communities and the environment.
