Architectural Designer/Drafter
2-5 years' experience

Siemasko + Verbridge, is an award-winning architecture and interior design firm focused on high-end custom residences, commercial and institutional work. We are a thriving firm of 22 professionals distinguished by our creative and supportive work environment. We are seeking a qualified draftsman to join our residential design team that has a strong understanding of wood-frame construction, high-end design skills and works well in a team environment.

THE CANDIDATE:

Motivated individual; opportunity for close mentoring relationship with experienced Project Architects.

Required Qualifications:

- BArch or MArch
- 2-5 years of working experience preparing construction documents for wood frame construction
- Strong production skills with the ability to multi-task and maintain focus on many different projects
- Proficiency in AutoCAD, SketchUp 3D modeling, Photoshop, and Acrobat
- Ability to work independently and as part of a team to meet project deadlines and budgets

THE JOB:

Responsibilities:

- Work directly with an experienced project manager
- Create and organize complete sets of Construction Documents for detailed residential projects
- Maintain ongoing positive and productive relationships with staff and consultants

Qualified applicants, who desire a creative and professional work environment, send resume, cover letter and work examples (5MB max file size) to:

Mr. Stefano Basso, Architect (2012 BArch alumnus)

via email to

Testimonial from Mr. Basso:

I've worked at S+V since graduation and can vouch for the stability and professionalism of the office. We have a great office culture that is anchored by a strong work ethic and a sense of humor! S+V has a robust business model and treats its employees really well. As a young architect, there are ample opportunities for mentorship from PM's and principals to learn the fundamentals of design, project management and building construction. It's a great spot for somebody that is looking to work outside of the city and still do high caliber design!
